

ABSENCE DECLARATION REACH (SVHC)

Date.: 25.02.2022 (¹)

Version 7.0

Products: stock shapes

PBI

PEI natural and black

Torlon 4203 PAI

Torlon 4301 PAI

PI D7000

PEEK natural and black

PEEK GF30

PEEK TX

Techtron® HPV

PSU natural

PEI GF30 natural and black (Ultem 2300)

PEEK CA30

PEEK FC30 mod.

PEEK MD

PPS natural

To the best of our knowledge, we herewith confirm that the substances mentioned on the **Candidate List of Substances of Very High Concern as published by ECHA on 28 October 2008 and updated up to and including 17 January 2022**, are neither intentionally introduced² during the production of the raw materials nor during the manufacture of the above mentioned stock shapes, or that the maximum concentration of 0.1% (w/w) mentioned by ECHA has not been exceeded, with the exceptions as mentioned below.

However, since the presence of the above mentioned substances cannot reasonably be expected, Cellpack AG BBC Cellpack Technology does not systematically check their absence in its stock shapes by testing.

Bisphenol A (CAS Nr. 80-05-7) is a monomer that is used in the production of the resins that are used for the extrusion of **PEI natural** and **PSU natural** stock shapes respectively and so it will be present in the end products in very small quantities. According to the resin suppliers these quantities are below 0.1% (w/w).

¹ This statement expires in case of regulatory or compositional changes.

² "Intentionally introduced" means "deliberately utilised in the formulation of a material to facilitate manufacture or to provide a specific characteristic, appearance or quality".
