

ABSENCE DECLARATION RoHS

Date.:	10. Januar 2020 ⁽¹⁾	Version 2.0
Products:	stock shapes	
	PA 6 E natural and black	
	PA 66 natural and black	
	PA 46	PA 66E + 30% GF
	PA 66 Nylatron GS	PA 6 MD
	PA 66 FR	
	PA 6G natural and black	PA 6G Plus
	PA 6G LFX (green)	
	PA 6G Nylatron MC901	PA 6G Nylatron GSM
	PA 6G Nylatron NSM	PA 6 Nylatron XL
	POM-C natural and black	
	POM-H natural and black	POM-H TF
	PETP natural and black	PETP TX
	PC natural	

To the best of our knowledge, we herewith confirm that the substances cadmium (Cd), lead (Pb), mercury (Hg), hexavalent chromium [Cr(VI)], polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), bis(2-ethylhexyl) phthalate (DEHP), butyl benzyl phthalate (BBP), dibutyl phthalate (DBP) and diisobutyl phthalate (DIBP), regulated by the **Directive 2011/65/EU** of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances (**RoHS**) in electrical and electronic equipment, as amended up to and inclusive of the Commission Delegated Directive (EU) 2019/1846, are neither intentionally introduced² during the production of the raw materials nor during the manufacture of the above mentioned **Cellpack stock shapes**.

Because the presence of the above-mentioned substances is not expected, their absence is not verified by Cellpack AG BBC Cellpack Technology through systematic testing.

Since additionally the Cellpack stock shapes mentioned above do not at all contain flame retardants – flame retardants which could contain polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE) – or plasticisers – plasticisers which could contain to (2-ethylhexyl) phthalate (DEHP), butyl benzyl phthalate (BBP), dibutyl phthalate (DBP) or diisobutyl phthalate (DIBP).

We therefore consider the requirements of the Directive 2011/65/EU as being met.

¹⁾ This statement expires in case of regulatory or compositional changes. New statements are published on our website in case of alterations; previous statements then automatically become void. Please always consult our website for the latest version.

²⁾ “Intentionally introduced” means “deliberately utilised in the formulation of a material to facilitate manufacture or to provide a specific characteristic, appearance or quality”.
